

UW – Green Bay Recreation and Athletics Committee Meeting Minutes  
Monday, October 6, 2008  
Meeting called to Order at 4:30 p.m.  
Common Grounds Coffee House

Attendance: Brianna Markowski, Kelly Schroeder, Ryan Birdsall

I. Introductions

- a. Jeff introduced himself and briefly covered what the committee deals with.

II. Information/Discussion Items

- a. Jeff described the purpose of the Kress Events Center (KEC) Advisory Committee and provided the Senators with a copy of the most recent draft of the KEC Advisory Committee Policy Establishment. They were instructed to look it over and offer any suggestions or advice on the document. Jeff sought input on how to select 3 students. The Committee suggested changing it to 4 students, 2 male, 2 female, with 1 representative for each class. Possible ideas mentioned on how to select the students included an application, contacting those students involved with intramurals, and having the Committee select students.
- b. Numbers for the first intramural season were up from the last year. Also, student attendance at home athletic events was up compared with last year.
- c. The Committee tried to find the best possible time to set future meetings on a regular basis. The members that were present, as well as Alex Schreiber via a text message, agreed upon 6:00 p.m. on Mondays opposite Senate meetings.

III. Open discussion

- a. Senators were asked to share goals/ideas they had brainstormed for the meeting. The Senators all seemed to agree on the goal of increasing student participation in intramurals as well as increasing student attendance at athletic contests. One issue brought up was the possibility of making less time between intramural seasons to make the seasons seem more continuous. Another idea was have more opportunities for students to use the Kress Center, like the Fitness Freakout or group workouts. Additionally, the Senators seemed to agree that there is a student desire to see more small, 1-2 day tournaments for various sports.

Meeting was adjourned at 4:56 p.m.
