Present: Brad Fischer, Andy Locke, Shea Sternhagen, Alex Schrieber, Matt Kehl

I. Information/Discussion Items

- i. The committee discussed what needed to be accomplished for sure this semester and those that we wanted to accomplish. This is what they came up with:**
 - 1. Dining Menu and Pricing**
 - 2. Dining Contract**
 - 3. Union program**
 - 4. Naming of the Union and rooms within**

II. Action Items

III. Open discussion for Ideas/Concerns

Union items:

- I.** Brad brought up the matter that the Union doesn't really have any of the school colors in it. The committee wanted to see if the Union could have more of the schools colors in it as well as the school logo somewhere within the Union.
- II.** The committee also discussed as to if it were possible to get the hand blow dryers in the restrooms to cut down on the amount of paper towel waste.
- III.** Matt brought up the matter of the 103 room not having any internet within the room. This makes it hard to get have any sort of projection unit in the room since the Union computers need to be hooked into the data jacks in order to be logged in.
- IV.** Shea had brought up the idea of trying to get more arcade games down in the club area. Brad said that there use to be but they had a tendency to break down often they use to be in the arcade room. He said that he would talk with Kelly Kramp about the matter to see how well this could work.

Dinning Items:

- I.** The committee discussed the matter that the register lines were getting long during the 12:00p – 2:00p hour. They would like to see if the other register islands could be staffed. Brad did mention that it is possible that Sodexo could be understaffed at the moment which could be contributing to the line but would talk with Kevin on the matter.
- II.** The idea was brought up of having a monthly BBQ or something to that effect just to give students a change in menu options.
 - a.** It was also suggested as to bring back the weekly specials
